# FULL FAT SOYA PRODUCTS

## Grits, Flour, Flakes, Meal

Authentic Golden Full Fat Soya Products made from the Pristine Soybeans

Premium quality products for International Markets prepared by the soybeans handpicked from finest farms in Central India just like our other products. Full fat products are best for manufacturing various protein rich soya delicacies which are 100% Pure and Organic.

Full fat products are prepared after going through multiple stages of cleaning and grading, then cracking, de-hulling, and carving into the final pristine product range. The finished products then undergoes a final screening through advanced graders before packing it to get uniform consistency throughout. Finally delivered to our customers across the globe with pride.
